

Collection of 8658 unique Mr Ghost NFT haunting the Elrond blockchain

Mr Ghost was born from a wish to create an NFT around the M logo from the Elrond Network digital wallet: Maia.

Minting was not started yet.

THE FIRST 5000 DAYS

EMOON

- Gained popularity
- Compromised
- Closed
- Wallet-based
 - NFT theft
- Smart Contract v2

eMoon is closing its doors.

We would like to thank you all for your trust and presence, you made eMoon possible.

From the beginning, our goal was to provide a tool to the community. You've probably noticed that our first version of eMoon was a bit under-scaled to handle all the traffic that your trust in our product has generated in the past few weeks.

We have been developing a new version of eMoon - based on smart contracts - to better meet the expectations of the community for almost a month.

On Friday 02/04, someone successfully broke into our system and stole about 500 of the rarest NFTs from our wallet in 30min, before our monitoring routines detected the intrusion.

Then, as you may have followed through our twitter updates, we managed to stop his transactions by sending your NFTs back to your wallets massively.

Finally, we were able to return all the NFTs we had, including those that were stolen.

We will not continue this adventure in the NFT world. This episode was very hard on us, both mentally and physically. We handled it as best we could, and at least we have the satisfaction of returning all your NFTs.

In the meantime, we can suggest you to check out other quality marketplaces on Elrond like TrustMarket, Isengard or Deadrare.

We wish you the best for the future, and thank you again for your support.

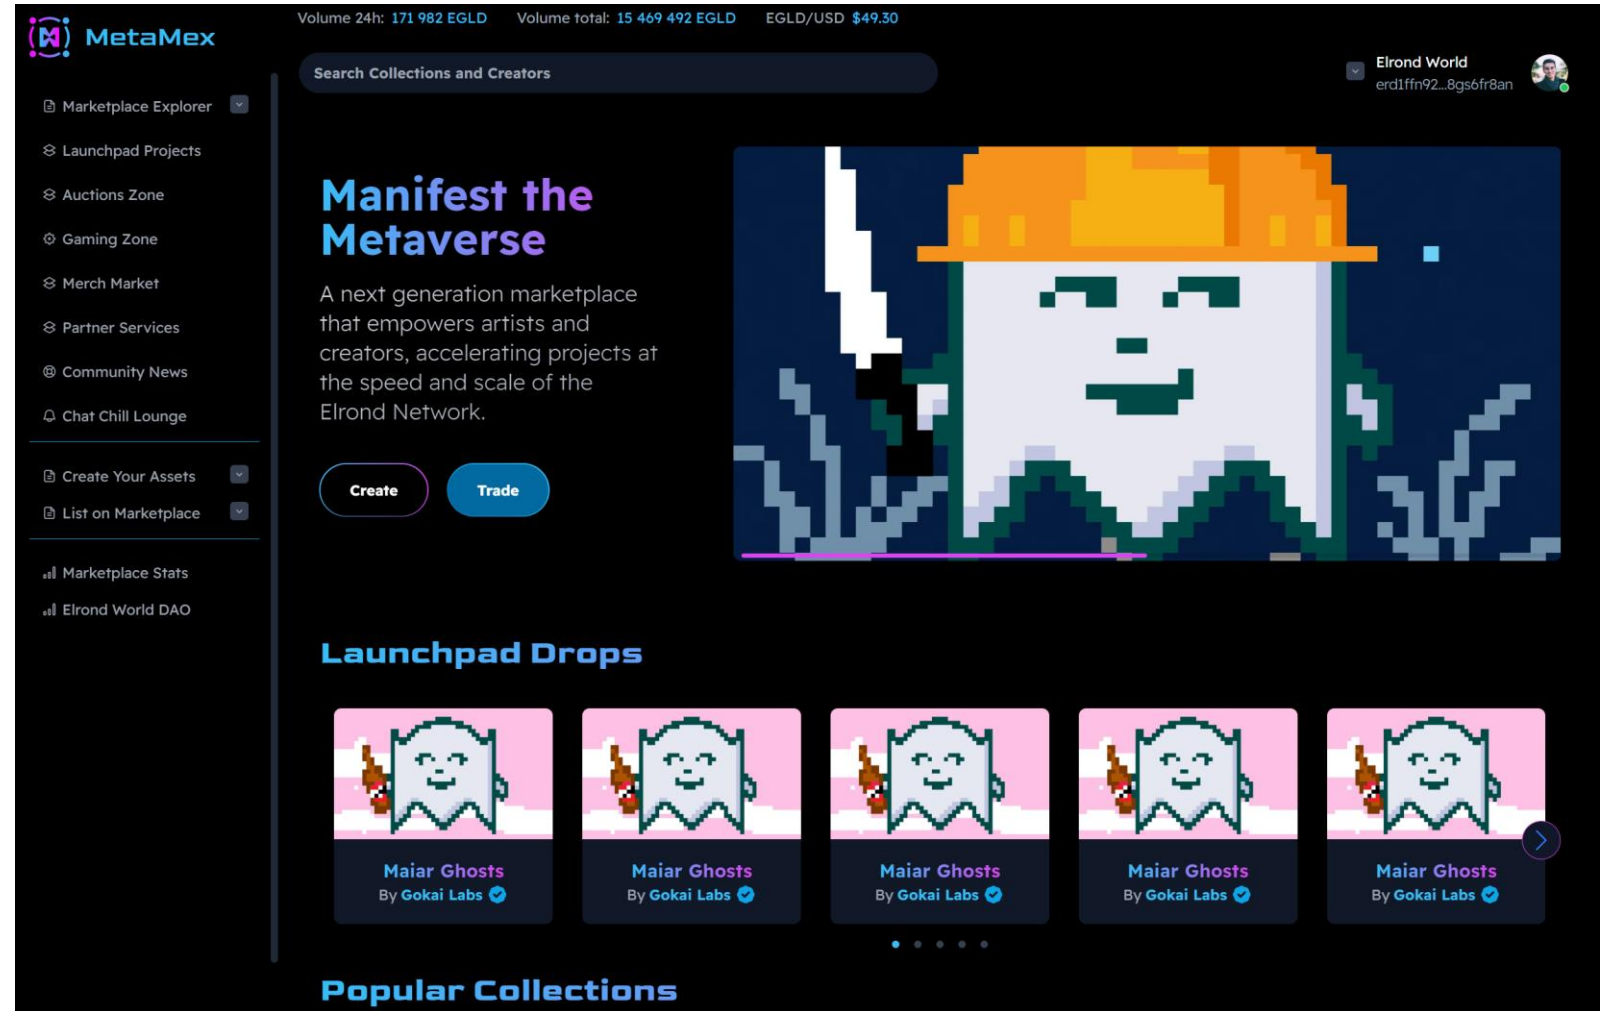

The  EMOON team.

eMoon is closing its doors
